

On behalf of the
Evanger's family, we
Thank you for
selecting Evanger's for
your beloved pets.

We take great pride manufacturing what we truly believe is the best pet food in the world. As a family owned and operated company, we love that what we do every day makes a large and positive impact on your pets' health and quality of life.

Our mission is to enhance the well-being of your companion pets. We work diligently to develop new products that will fit within our philosophy of quality and innovation.

We have proudly been **independently owned for 85 years**, and because of this, we continue to sell our products through independent neighborhood pet stores where quality and customer service are of the utmost importance and mirror our values and passion.

This settlement will have ZERO effect on the superior quality of our foods. It was done to move on from what we believe is a meritless lawsuit about marketing and our previous voluntary recall of three products. With the case now behind us, we can get back to our unwavering commitment to pet health and nutrition and serving YOU, our incredible customers, friends and partners.

Safety and quality are paramount, not only because of our mission, but because Evanger's is the food that we feed to our own pets at every meal. Our family's dog Lilly just celebrated her 13th birthday, and has eaten Evanger's exclusively for her entire life. Lilly's older brother, Yukon, was the dog that inspired the proprietary hand-packed line, which is now the world-renowned first choice of foodie pets.

Evanger's will continue to enhance our internal safety protocol and requirements, which include an improved supplier verification program.

We are proud to have a cutting-edge cannery whose proximity to local suppliers help support our green initiatives and offers quality that is second-to-none. Here are some of the raw materials we use each and every day:

The product in the dish (right) shows the contents of Roasted Chicken Drumsticks, poured directly from the can. This chicken is sourced from a human grade facility. It is a favorite during football season so that you can safely and conveniently feed your pet at your football watch parties.

Evanger's distributes sweet potato pies during the holidays, baked with sweet potatoes that are harvested by the same farmers that supply the sweet potatoes utilized in Evanger's canned foods (left).

This is a photo taken in the cannery during production. The carrots, butternut squash, spinach, and sweet potatoes are sourced fresh from local wholesale markets that also sell their ingredients to both restaurants and grocery stores.

Brett Sher (right), our raw material procurer, inspects our fresh salmon, sourced from a human-grade, FDA-inspected facility, prior to canning.

We are pleased to announce new flavors in our line of 100% organic certified products by the USDA-National Organic Program. And as with all Evanger's cans, the cans are BPA-free.

We would like to thank you all for your support. We accomplished many milestones in our 84th year, and are looking forward to even more in our 85th. Below are just a few of our 2019 accomplishments:

Recently, our engineer, **Callie Sher**, accepted the **Next-Generation Manufacturing Leadership Award** from the National Association of Manufacturers, recognizing her outstanding achievements in manufacturing practices in safety, innovation, and quality control. Callie was up against multi-national conglomerates and Fortune 500 companies for this award, including nominees from HP, IBM, Boeing, Cisco, Dow, and General Mills to name a few. We're so excited that Callie's work is being recognized in such an enormous way!

Evanger's was the **ONLY** pet food brand featured on a recent "Pets and Tailgating" Safety Segment on **WBRM TV** in Alabama and Las Vegas! Watch this clip if you tailgate during football season.

Brett Sher was chosen as the sole manufacturer's representative invited to sit on a panel at the first **Pets+ 2019 Wellness Summit** in Chicago last month. It was an enlightening experience for us and our retailers to connect in support of premium pet nutrition, high standards in taste, sourcing and safety.

Last but certainly not least, Evanger's USA Game Bird Recipe with Coconut Oil for Dogs was just selected as a Finalist for the prestigious **Pet Product News 2019 Editors' Choice Awards!** The Game Bird Recipe is competing among thousands of entries for all types of dog products.

As the only family-owned and operated pet food cannery in the United States, we thank you for your support and appreciate your loyalty to our products.

With gratitude,
The Sher Family
Evanger's Dog and Cat Food Company
